## REMOTE FUNCTIONS

### HOW TO "MARRY THE TRANSMITTER"

This function allows you to add a programmed motor to another remote or channel.

- 1) EXISTING REMOTE - Press and hold the "STOP" button (3 to 5 seconds) and release when the motor starts to beep.
- 2) NEW REMOTE OR CHANNEL - Immediately Press the "UP" button on another channel. If done correctly the motor will beep again. Test that the motor married correctly to the new remote channel or transmitter. (if done incorrectly motor could go into jog mode..see below)  
*NOTE: You can marry multiple motors to the same individual remote channel and create a group if desired. Just repeat the instructions for each motor you wish to marry.*

**CONGRATULATIONS! MOTOR OPERATES FROM MULTIPLE REMOTES**

### ONLY IF NEEDED

#### "MOTOR JOG MODE" - How to fix

"Jog mode" causes the motor to make a short movement when pressing the up or down button. To fix:

- 1) Press and hold the "STOP" button (3 to 5 seconds) and release when the motor starts to beep.
- 2) Immediately Press the "STOP" button again. If done correctly the motor will exit "jog mode" and operate correctly.

DROPSHADE.com

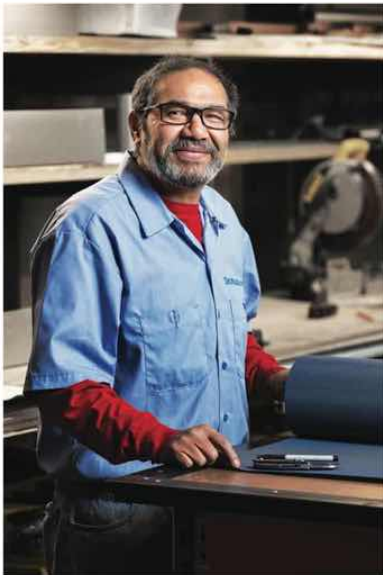

You'd think, with us being leaders in an industry that is often referred to as "sun control," that we'd be walking around with fairly swelled heads. After all, it's pretty haughty of anyone to claim they can control the sun. But really, we're just a group of super friendly, really hard-working guys who are just proud of the quality of work we do. We may not actually control the sun, but we do help you control the amount of sunlight that enters your space. We think that, not only is it important, it's just really dang cool. We're passionate about what we do and we think it shows in the quality of our product and in the strength of our client relationships.

As a family-owned and operated, Vegas-based business, we're proud of our history. It's what made us leaders in the custom residential and commercial shade and awning industry. It's always been a tradition of ours to hold customer care as a priority and to drive production innovation. We know that we've set the bar for the industry and promise to continue to work to always earn our customers' loyalty.

Backed by more than two decades of experience, our cutting-edge manufacturing techniques, state-of-the-art equipment, superior materials and unparalleled craftsmanship all combine to create an award-winning product that is affordable for both homeowners and business owners alike.

We're the DropShade family. We may not control the sun but we're proud to control your enjoyment of it.

The 2-n-1 Shade from  
**DROPSHADE**™

*"an awning and a dropshade combined"*

- Set at any Height and angle to full Dropshade
- Stronger than a retractable awning
- Excellent outward visibility
- Blocks up to 95% of the sun
- Expand your patio space and living space
